

7 Things To Know About Our STAINLESS STEEL MIX STIR

- 1 New & improved design.**
This is a thinner model that will fit all glass carboys, even those with narrow necks.
- 2 Protective hose.**
This acts to protect the carboy from scratches if you drop the mix stir inside the container.
- 3 Easy to get parts.**
It has replaceable blades.
- 4 It's tough.**
The nearly indestructible rod will last forever.
- 5 Turbo power.**
The strong and powerful blades act like a turbine for maximum mixing and stirring efficiency.
- 6 Reach.**
It is probably the longest stainless steel rod available in the market.
- 7 It's made with the finest materials.**
The Stainless Steel mix stir is made with Food Grade Materials and a super-strong rod.

Coming soon: Stainless steel blades!

When you add these blades, your S/S mix stir will be nearly indestructible. It will also be:

» Alcohol resistant. » Heat resistant (for stirring boiling products, such as beer). » Super tough.

Look for Stainless Steel Blades this fall.
